Price: $19.99

Short Description

Joomla 5 needs a Google Captcha ReCAPTCHA. The advantages of CAPTCHAs include preventing spam from automated programs that could send emails, comments, or advertisements.

Description

Joomla 5 needs a Google Captcha ReCAPTCHA. The advantages of CAPTCHAs include preventing spam from automated programs that could send emails, comments, or advertisements. They prevent fake registrations or sign-ups for websites. CAPTCHAs are familiar, so website visitors automatically understand what they are tasked to do.

How to use:

1. **Get reCAPTCHA Keys**:

   - Go to the [Google reCAPTCHA site](#).
   - Click on the "Admin Console" button and sign in with your Google account.
   - Register your site by providing the necessary details and choose the type of reCAPTCHA you want to use (v2, v3, or Invisible reCAPTCHA).
   - Google will provide you with a Site Key and a Secret Key.

2. **Enable the reCAPTCHA Plugin in Joomla**:

   - Log in to your Joomla Administrator panel.
   - Navigate to **Extensions** > **Plugins**.

- Search for the **CAPTCHA - reCAPTCHA** plugin and open it.
- Set the **Status** to **Enabled**.
- Choose the **Version** (e.g., 2.0 for reCAPTCHA v2).
- Enter the **Site Key** and **Secret Key** you obtained from Google.
- Save and close the plugin settings.

3. **Set reCAPTCHA as the Default CAPTCHA**:

- Go to **System** > **Global Configuration**.
- Under the **Site** tab, find the **Default Captcha** setting.
- Select **CAPTCHA - reCAPTCHA** from the dropdown menu.
- Save the configuration.

4. **Verify reCAPTCHA on Your Forms**:

- Check your site's forms (e.g., registration, contact forms) to ensure that reCAPTCHA is now active.

Installation Guide
How to use:

1. **Get reCAPTCHA Keys**:

- Go to the Google reCAPTCHA site.
- Click on the "Admin Console" button and sign in with your Google

account.
- Register your site by providing the necessary details and choose the type of reCAPTCHA you want to use (v2, v3, or Invisible reCAPTCHA).
- Google will provide you with a Site Key and a Secret Key.

2. **Enable the reCAPTCHA Plugin in Joomla**:

- Log in to your Joomla Administrator panel.
- Navigate to **Extensions** > **Plugins**.
- Search for the **CAPTCHA - reCAPTCHA** plugin and open it.
- Set the **Status** to **Enabled**.
- Choose the **Version** (e.g., 2.0 for reCAPTCHA v2).
- Enter the **Site Key** and **Secret Key** you obtained from Google.
- Save and close the plugin settings.

3. **Set reCAPTCHA as the Default CAPTCHA**:

- Go to **System** > **Global Configuration**.
- Under the **Site** tab, find the **Default Captcha** setting.
- Select **CAPTCHA - reCAPTCHA** from the dropdown menu.
- Save the configuration.

4. **Verify reCAPTCHA on Your Forms**:

- Check your site's forms (e.g., registration, contact forms) to ensure that reCAPTCHA is now active.
