Short Description
This module helps you enhance the visual appeal of your Joomla website by allowing you to customize the background with flexible colors.

Description

 The Joomla HTML Background Module is designed to enhance your website's visual appeal through dynamic, timer-controlled color transitions. Lightweight and easy to set up, this module lets you select and customize colors effortlessly. With full compatibility across Joomla's modern versions and a responsive design, it delivers a captivating experience on any device. Perfect for grabbing attention and boosting engagement, this module is a great addition to any Joomla site.

Features and Functionalities:

Enhanced Visual Appeal: Transform your Joomla website into a vibrant and engaging experience with flexible, customizable HTML color backgrounds.

Dynamic Background Color Timer: Automatically change background colors using timer settings, adding a lively and dynamic visual effect to your site.

Lightweight and User-Friendly Setup: Simple and quick installation makes this module hassle-free for users of all skill levels.

Customizable Color Selection: Choose and apply your preferred background colors effortlessly, ensuring they align perfectly with your site's aesthetic.

Responsive Design: Optimized for mobile devices, tablets, and desktops, the module ensures visually appealing backgrounds on any screen.

Wide Compatibility: Fully tested and operational on Joomla versions 3.x, 4.x, and 5.x, delivering seamless functionality across platforms.

Marketing Edge: Catch the attention of visitors with dynamic color transitions, making the module ideal for promotions and marketing campaigns.
