## Description

### **Joomla Module for Microsoft Teams Call Integration**

#### **Functionality:**

**Seamless Integration:** This module allows you to connect your Joomla website with Microsoft Teams, enabling direct calls from your site.

**Easy Setup:** Simple to install and configure, allowing quick integration without hassle.

**User Convenience:** Provides visitors with a straightforward way to join Teams calls directly from your website.

**Customizable Settings:** Adjust the module's settings to fit your website's design and functionality needs.

**Responsive Design:** Ensures the module works perfectly on all devices, including desktops, tablets, and smartphones.

**Compatibility:** Fully operational and tested on Joomla versions 4 and 5.

**Enhanced Communication:** Ideal for businesses and organizations to facilitate virtual meetings, webinars, and customer support directly through their Joomla site.

This module enhances your Joomla site by providing an integrated solution for Microsoft Teams calls, making it easier for users to connect and communicate through your website. Whether it's for virtual meetings, webinars, or customer support, this module ensures seamless and efficient communication.

## Installation Guide

### How to Install:

- **Microsoft Azure App Registration:**
  - You need to register your Joomla site as an application in Microsoft Azure to use Microsoft Graph API.
  - Visit [Azure Portal](#) and create a new app registration.
  - Configure API permissions for Microsoft Teams (delegated permissions for Calls.AccessMedia.All, OnlineMeetings.ReadWrite, etc.).
  - Generate client ID, client secret, and redirect URI for OAuth authentication.
- **Microsoft Graph API:**
  - This API allows you to create meetings, manage calls, and interact with Microsoft Teams resources.

The screenshot displays the Joomla! administrator interface for the 'Teams Meeting Module'. The page is titled 'Teams Meeting Module' and includes a 'Site' tab. The main content area contains three input fields for configuration: 'Client ID \*', 'Client Secret \*', and 'Redirect URI \*', each with a 'Please fill in this field' error message. To the right, there are settings for 'Title' (with a 'Show' checkbox), 'Position' (set to 'Main-top [main-top]'), 'Status' (set to 'Published'), 'Start Publishing' (with a calendar icon), and 'Finish Publishing' (with a calendar icon). The Microsoft Teams logo and name are visible at the bottom of the configuration area.
