Short Description

Joomla Pop Up Login Module! With this feature, users can log in through a sleek, customizable pop-up window rather than the traditional login page. Here's a clear breakdown of its functions:

Description

Introducing the Joomla Pop Up Login Module!

With this feature, users can log in through a sleek, customizable pop-up window rather than the traditional login page.

Here's a clear breakdown of its functions:

Transparent Pop-Background: The login window has a transparent background, blending seamlessly with your site's design.

Easy to Customize Settings: You can easily tweak the settings to match your site's look and feel.

URL Redirection Option: After login, users can be redirected to a specific URL of your choice.

Tested and Compatible: Works flawlessly with Joomla 4 and Joomla 5.

Versatile: Compatible with all types of Joomla templates.

Simple Installation: Easy to set up and configure, getting you up and running in no time.

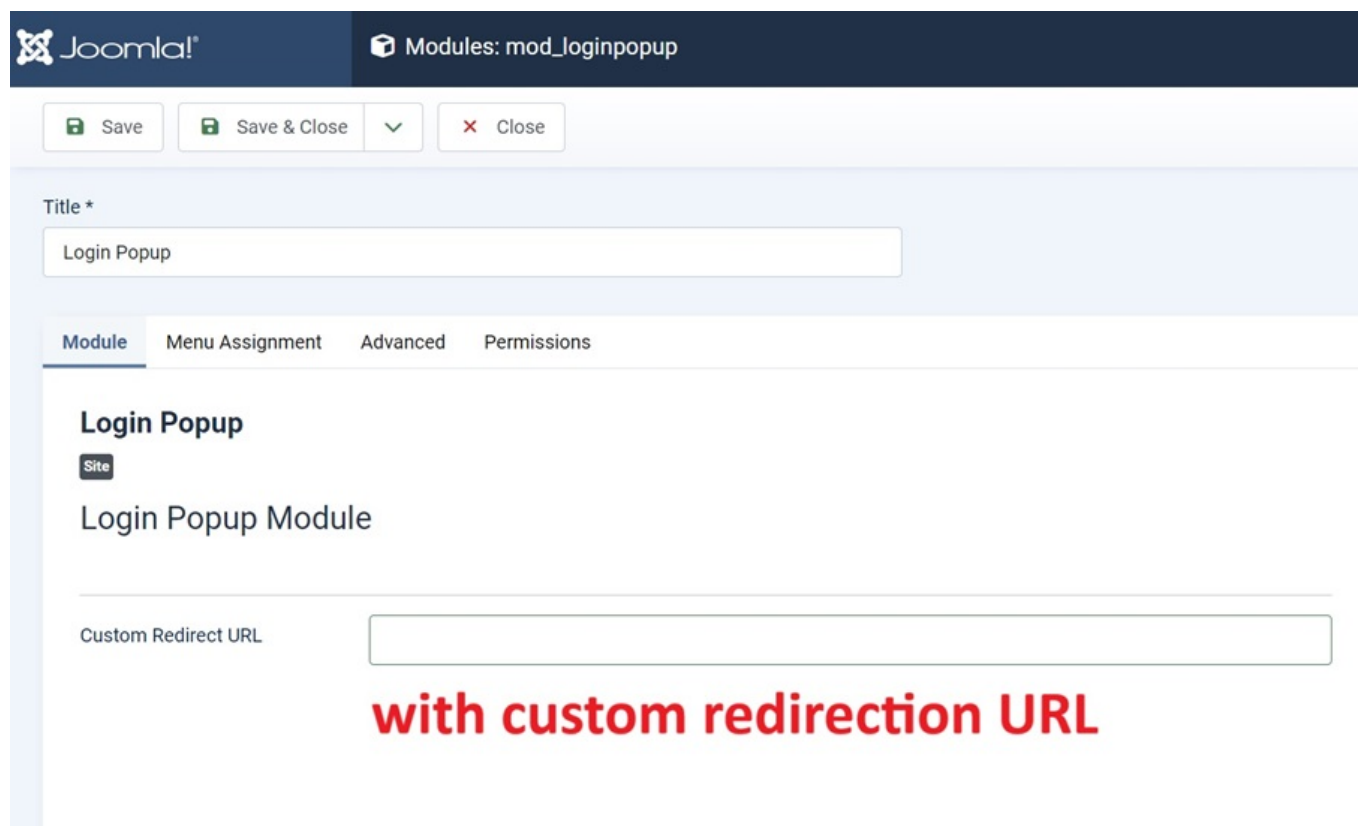

Responsive Design: Works across all devices, ensuring a smooth login experience on desktops, tablets, and smartphones.

Enhanced Security: Includes security features to protect user data during the login process.

Basically, this module streamlines the login process, enhancing the user experience while maintaining security and functionality.

It's perfect for boosting user engagement and satisfaction!

[LIVE DEMO](#)

The screenshot displays the Joomla! administrator interface for configuring the 'mod_loginpopup' module. At the top, the Joomla! logo and the module name 'Modules: mod_loginpopup' are visible. Below this, there are buttons for 'Save', 'Save & Close', and 'Close'. The 'Title' field is set to 'Login Popup'. The 'Module' tab is selected, showing the 'Login Popup' module details. A 'Site' button is present. The 'Custom Redirect URL' field is empty. A red text overlay at the bottom right reads 'with custom redirection URL'.
