Description

Joomla Power BI Reports Display Module

Functionality:

Seamless Integration: This module enables you to embed Power BI reports directly into your Joomla website.

Easy Setup: Simply add the embed URL and access token to display your reports.

Versatile Display Options: Works with all Joomla templates, ensuring consistent presentation across different site designs.

Compatibility: Fully tested and operational on Joomla versions 4 and 5.

User-Friendly: Designed to be intuitive, making it easy for administrators to add and manage reports.

Enhanced Data Visualization: Leverage Power BI's powerful analytics and visualization tools to display complex data in an accessible format on your site.

This module allows you to seamlessly integrate and display Power BI reports on your Joomla site. Whether you need to showcase business analytics, performance metrics, or any other data, this module provides a straightforward solution that enhances your website's functionality and user experience.

The screenshot shows the Joomla! administrator interface for configuring the 'mod_powerbi' module. The top navigation bar includes the Joomla! logo, the current page title 'Modules: mod_powerbi', and the Joomla! version '5.1.4'. Below the navigation bar are buttons for 'Save', 'Save & Close', and 'Close', along with 'Toggle Inline Help' and 'Help'.

The main content area is titled 'Title *' and contains a text input field with the value 'mod_powerbi'. Below this is a tabbed interface with 'Module', 'Menu Assignment', 'Advanced', and 'Permissions' tabs. The 'Module' tab is active, showing the module name 'mod_powerbi' and a description: 'Module to embed Power BI reports in Joomla 5'. A 'Site' icon is visible next to the module name.

The configuration form includes several fields and controls:

- Embed URL:** A text input field.
- Access Token:** A text input field.
- Title:** A text input field with the value 'mod_powerbi'.
- Show:** A toggle switch that is currently turned on.
- Position:** A dropdown menu with the value 'main-top'.
- Status:** A dropdown menu with the value 'Published'.
- Start Publishing:** A date/time picker field.

The 'POWER BI JOOMLA MODULE' logo is prominently displayed in the center of the configuration area.
