This module is perfect for adding a touch of whimsy and excitement to your Joomla site. It's ideal for special events, celebrations, or simply to make your website more engaging and fun for your visitors.

Description

Joomla Module for Animated Floating Balloons Functionality:

Visually Engaging: This module adds animated floating balloons to your Joomla site, bringing a playful and dynamic element to your web pages.

Random Colors and Directions: The balloons float in various random colors and directions, making the animation lively and unpredictable.

Customizable Settings: Adjust the number, size, and speed of the balloons to match your desired effect.

Attractive Design: Enhances your site's visual appeal and can be used to celebrate special occasions or create a fun atmosphere.
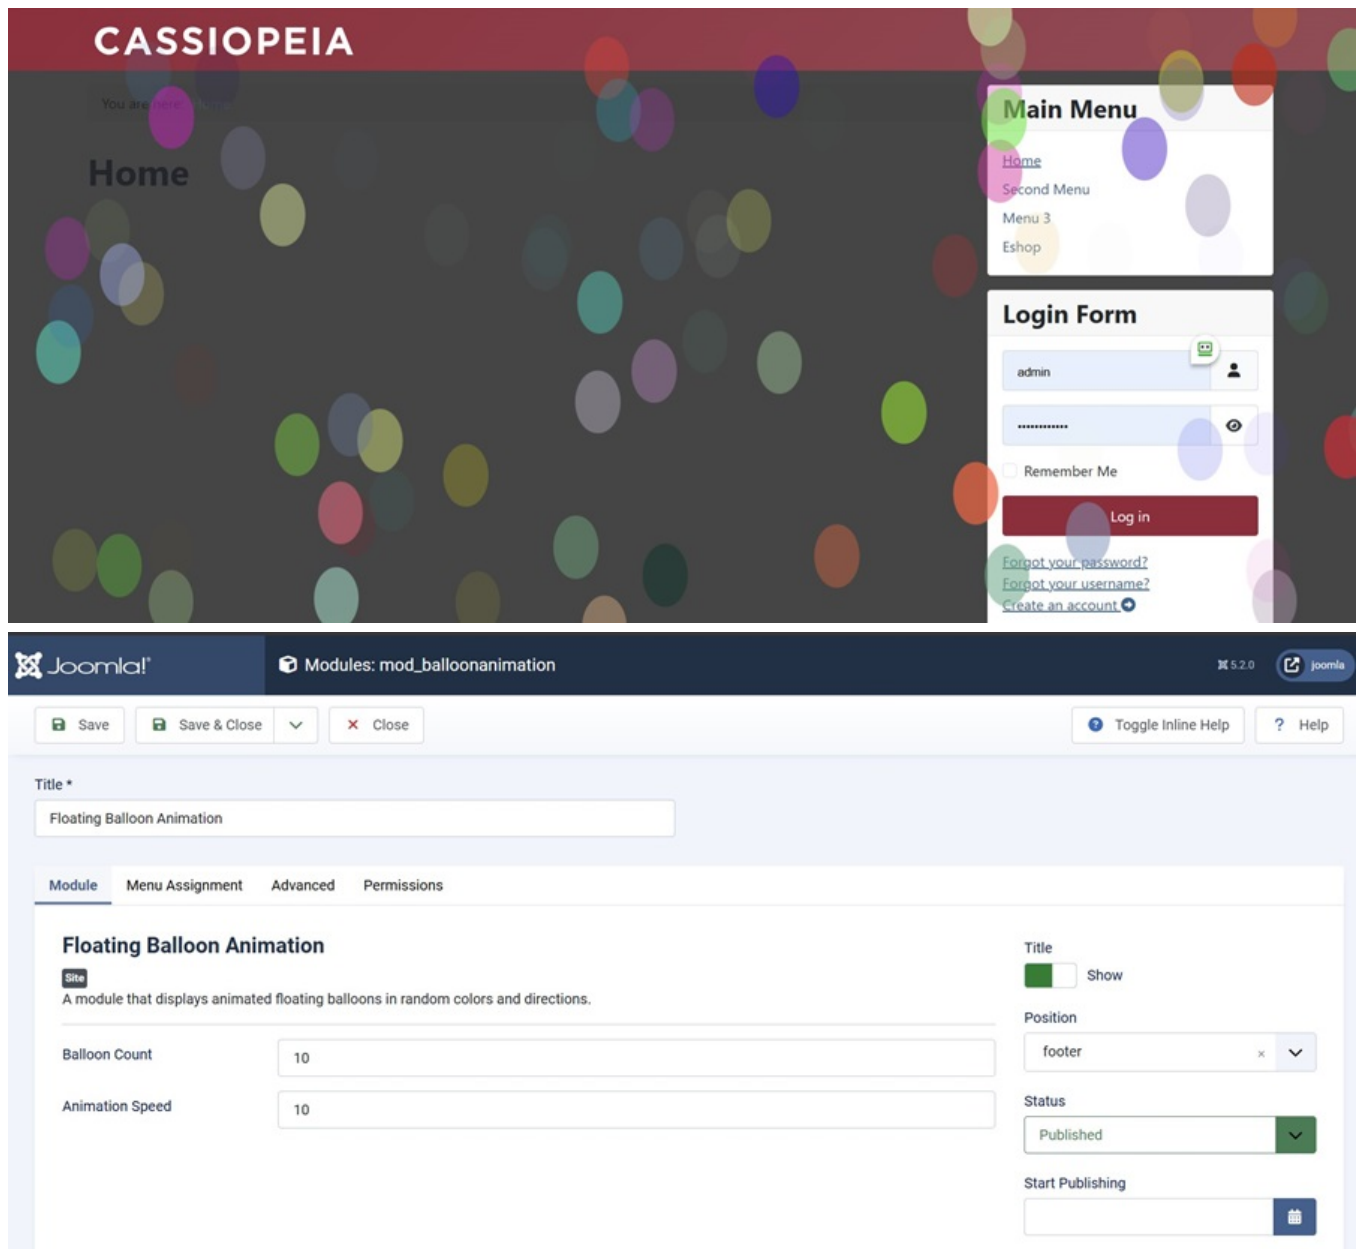

Responsive and Mobile-Friendly: Designed to work seamlessly on all devices, ensuring a consistent experience for all users.

Easy Setup: Simple installation and configuration, allowing you to quickly add the animated balloons to your site.

Compatibility: Fully tested and operational on Joomla versions 3, 4 and 5, and works

with all Joomla templates.

This module is perfect for adding a touch of whimsy and excitement to your Joomla site. It's ideal for special events, celebrations, or simply to make your website more engaging and fun for your visitors.
