Short Description

This module brings a unique and mesmerizing star field animation to your Joomla website. With customizable settings and randomized star properties, it creates a visually dynamic experience that enhances the overall user engagement. Perfect for adding a magical touch to your site.

Description

Joomla Blinking Star Animation Module

Functionality:

Dynamic Visuals: This module adds a captivating blinking star animation effect to your Joomla website, enhancing its visual appeal.

Randomized Star Properties: Each star in the animation has a randomized size, animation speed, and delay, creating a dynamic and unique star field effect that captures attention.

Customizable Settings: Adjust the number of stars, their color, and other properties to match your site's theme and design.

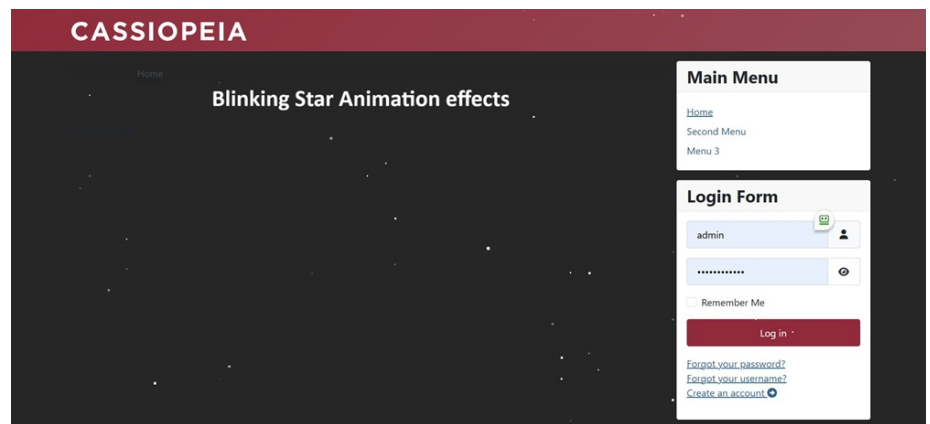

Engaging Experience: Ideal for creating an enchanting atmosphere, perfect for nighttime or space-themed websites.

Responsive Design: Ensures that the animation looks great and functions smoothly on all devices, including desktops, tablets, and smartphones.

Compatibility: Fully tested and operational on Joomla versions 4 and 5, and works with all Joomla templates.

Simple Setup: Easy to install and configure, allowing you to quickly add the star field effect to your site.

This module brings a unique and mesmerizing star field animation to your Joomla website. With customizable settings and randomized star properties, it creates a visually dynamic experience that enhances the overall user engagement. Perfect for adding a magical touch to your site.
