The image shows the Joomla! administrator interface for configuring the 'mod_snowfall' module. At the top, there is a 'Title *' field containing 'mod_snowfall'. Below this are tabs for 'Module', 'Menu Assignment', 'Advanced', and 'Permissions'. The 'Module' tab is active, showing the module's name 'mod_snowfall' and a 'Site' icon. A description reads: 'Module to display falling snowflakes with adjustable speed, density, and star color.' The configuration is split into two columns. The left column contains three input fields: 'Snowflake Speed (seconds)' with the value '5', 'Snowflake Density' with the value '5', and 'Star Color' with a color picker set to '#1dceeb'. The right column contains several settings: 'Title' with a checked 'Show' checkbox, 'Position' set to 'main-top', 'Status' set to 'Published', and 'Start Publishing' with a calendar icon. At the bottom right, there is a 'Finish Publishing' button.
