Short Description

This module lets you add an eye-catching diagonal ribbon to your Joomla site, which can be positioned in the top-left or top-right corner. You can further customize its appearance by editing the style.css file, making it a versatile and attractive addition for highlighting important content or announcements on your site.

Description

Joomla Module for Customizable Diagonal Ribbon

Functionality:

Flexible Positioning: Adds a diagonal ribbon that can float in either the top-left or top-right position on your Joomla website.

Customizable Appearance: Adjust the style.css file to further customize the ribbon's design, color, and other visual elements to match your site's theme.

Dynamic Design: Enhances your website's aesthetics by adding a visually appealing ribbon.

Versatile Use: Ideal for highlighting promotions, announcements, or any important messages.

Responsive Design: Ensures the ribbon displays properly on all devices, including desktops, tablets, and smartphones.

Compatibility: Fully tested and operational on Joomla versions 4 and 5, and works with all Joomla templates.

Easy Setup: Simple to install and configure, allowing you to quickly add and customize the ribbon.

This module lets you add an eye-catching diagonal ribbon to your Joomla site, which can be positioned in the top-left or top-right corner. You can further customize its appearance by editing the style.css file, making it a versatile and attractive addition for highlighting important content or announcements on your site.
