Price: $19.99

Short Description

This extended module enhances your Joomla site by providing a flexible and customizable age verification system. It allows administrators to tailor the verification screen to their specific needs, ensuring a smooth and compliant user experience while protecting restricted content.

Description

Joomla Module for Age Verification

Functionality:

Age Verification: This module ensures that visitors meet the minimum age requirement before accessing your Joomla website, complying with legal and policy requirements.

Customizable Content: Administrators can set custom text for headings, descriptions, button labels, and error messages, making it adaptable to different website needs and branding.

Flexible Setup: Easily configure the module to match your site's design and tone, enhancing user experience and maintaining consistent branding.

User-Friendly Interface: Visitors are prompted with a clear, easy-to-use verification screen where they can confirm their age to proceed.

Responsive Design: Optimized for all devices, ensuring the age verification process is seamless on desktops, tablets, and smartphones.
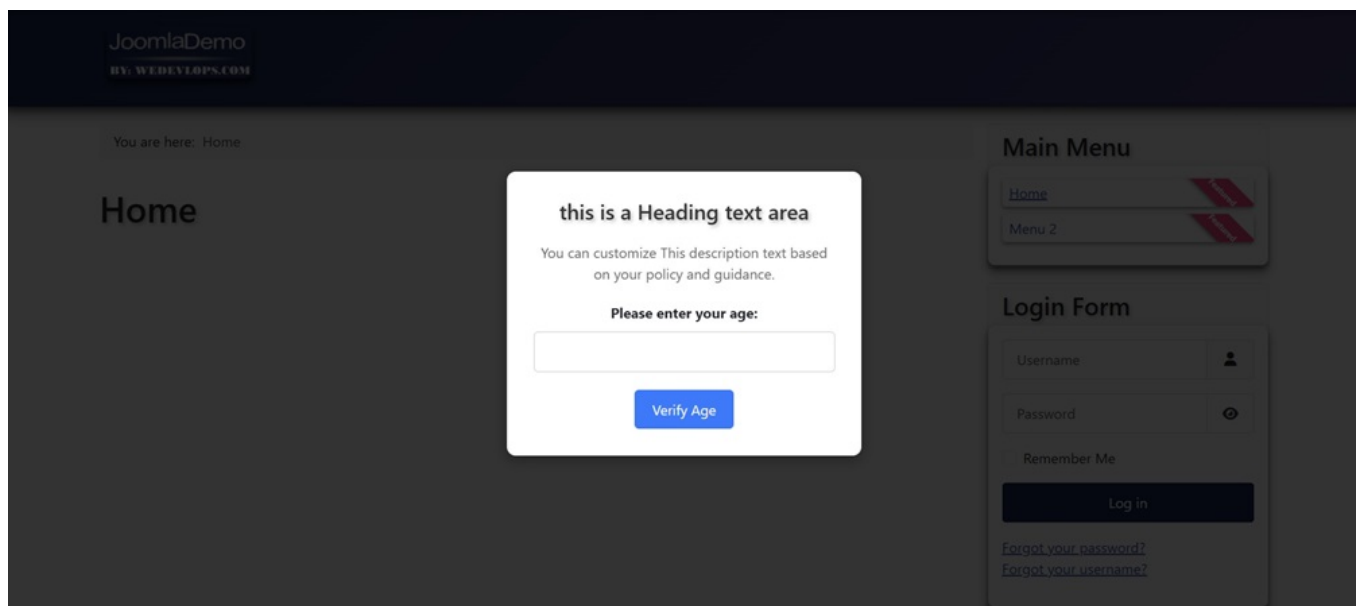

Compliance: Helps your site stay compliant with legal age restrictions for content access, such as alcohol, gambling, or adult content.

Compatibility: Fully tested and operational on Joomla versions 4 and 5, and works with all Joomla templates.

Simple Integration: Easy to install and configure, allowing quick deployment of the age verification feature.

This extended module enhances your Joomla site by providing a flexible and customizable age verification system. It allows administrators to tailor the verification screen to their specific needs, ensuring a smooth and compliant user experience while protecting restricted content.
