Short Description

This module enhances your Joomla website by adding an interactive WhatsApp chat button with customizable floating effects. It provides a convenient way for visitors to contact you and ensures that the chat feature is always accessible, thus improving user engagement and support.

Description

Joomla WhatsApp Chat Integration Module with Floating Effects

Functionality:

Chat Integration: This module integrates WhatsApp chat functionality directly into your Joomla website, allowing visitors to contact you easily via WhatsApp.

Floating Button: Adds a floating chat button that can be positioned on the bottom left or bottom right of the screen, providing easy access for users no matter where they are on your site.

Customizable Position: You can choose whether the chat button floats on the left or right side, ensuring it fits seamlessly with your site's design and layout.

Engaging Animation: The button includes floating effects that attract visitors' attention, making it an effective tool for increasing engagement and improving customer service.

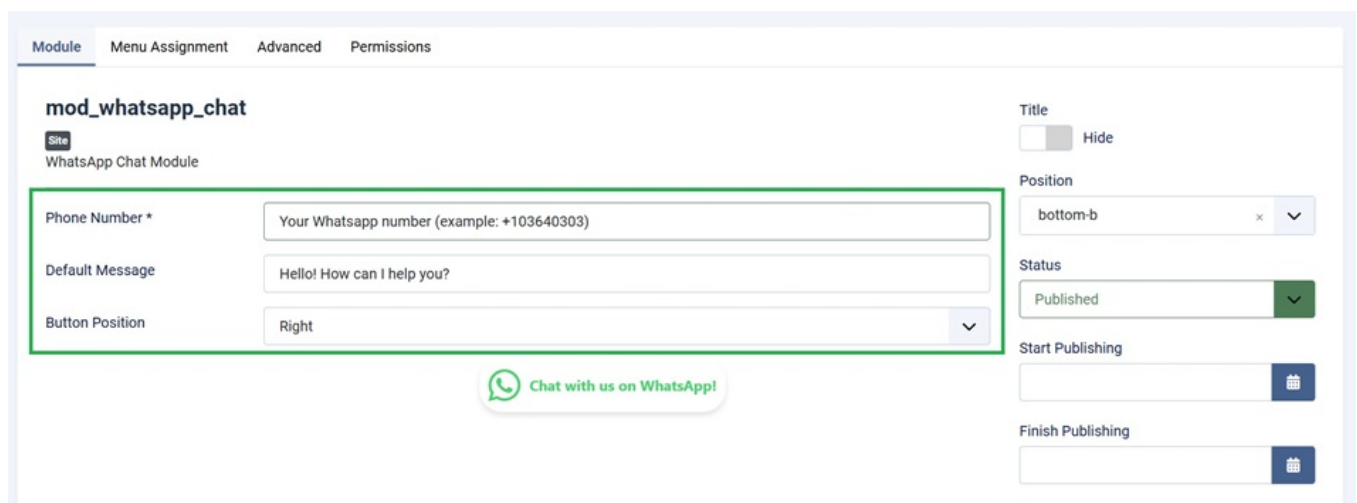

Responsive Design: The floating chat button works seamlessly across all devices, ensuring a consistent user experience on desktops, tablets, and smartphones.

Simple Setup: Easy to install and configure, allowing you to quickly add WhatsApp chat functionality to your site with minimal effort.

Enhanced Communication: Facilitates real-time communication with your visitors, which can help improve customer satisfaction and boost conversions.

This module enhances your Joomla website by adding an interactive WhatsApp chat button with customizable floating effects. It provides a convenient way for visitors to contact you and ensures that the chat feature is always accessible, thus improving user engagement and support.

The screenshot displays the Joomla! administrator interface for the 'mod_whatsapp_chat' module. The interface is divided into several sections:

- Module Configuration:** Includes tabs for 'Module', 'Menu Assignment', 'Advanced', and 'Permissions'. The 'Module' tab is selected, showing the 'mod_whatsapp_chat' module with a 'Site' icon and the label 'WhatsApp Chat Module'.
- Form Fields:**
 - Phone Number *:** A text input field with the placeholder 'Your Whatsapp number (example: +103640303)'.
 - Default Message:** A text input field with the placeholder 'Hello! How can I help you?'.
 - Button Position:** A dropdown menu with 'Right' selected.
- Preview:** A small preview of the chat button is shown at the bottom, displaying a WhatsApp icon and the text 'Chat with us on WhatsApp!'.
- Advanced Settings:**
 - Title:** A toggle switch labeled 'Hide'.
 - Position:** A dropdown menu with 'bottom-b' selected.
 - Status:** A dropdown menu with 'Published' selected.
 - Start Publishing:** A date picker field.
 - Finish Publishing:** A date picker field.
