Price: \$19.99

Short Description

This module enhances your Joomla website by adding an interactive Facebook Messenger button with customizable floating effects. It provides a convenient way for visitors to contact you and ensures that the chat feature is always accessible, improving user engagement and support.

Description

Joomla Module for Facebook Page Messenger with Floating Button

Functionality:

Chat Integration: This module integrates Facebook Page Messenger directly into your Joomla website, allowing visitors to interact with your business through Messenger without leaving your site.

Floating Button: Adds a floating button that can be positioned on either the left or right side of the screen, ensuring easy access for users no matter where they are on your site.

Customizable Position: You can choose to place the floating button on the left or right side, making it adaptable to your site's design and layout.

Engaging Animation: The button includes floating effects that attract visitors' attention, making it an effective tool for increasing engagement and improving customer service.

Responsive Design: Ensures that the floating button works seamlessly across all devices, providing a consistent user experience on desktops, tablets, and smartphones.

Compatibility: Fully compatible with Joomla 3, Joomla 4, and Joomla 5, ensuring it works across different versions of Joomla.

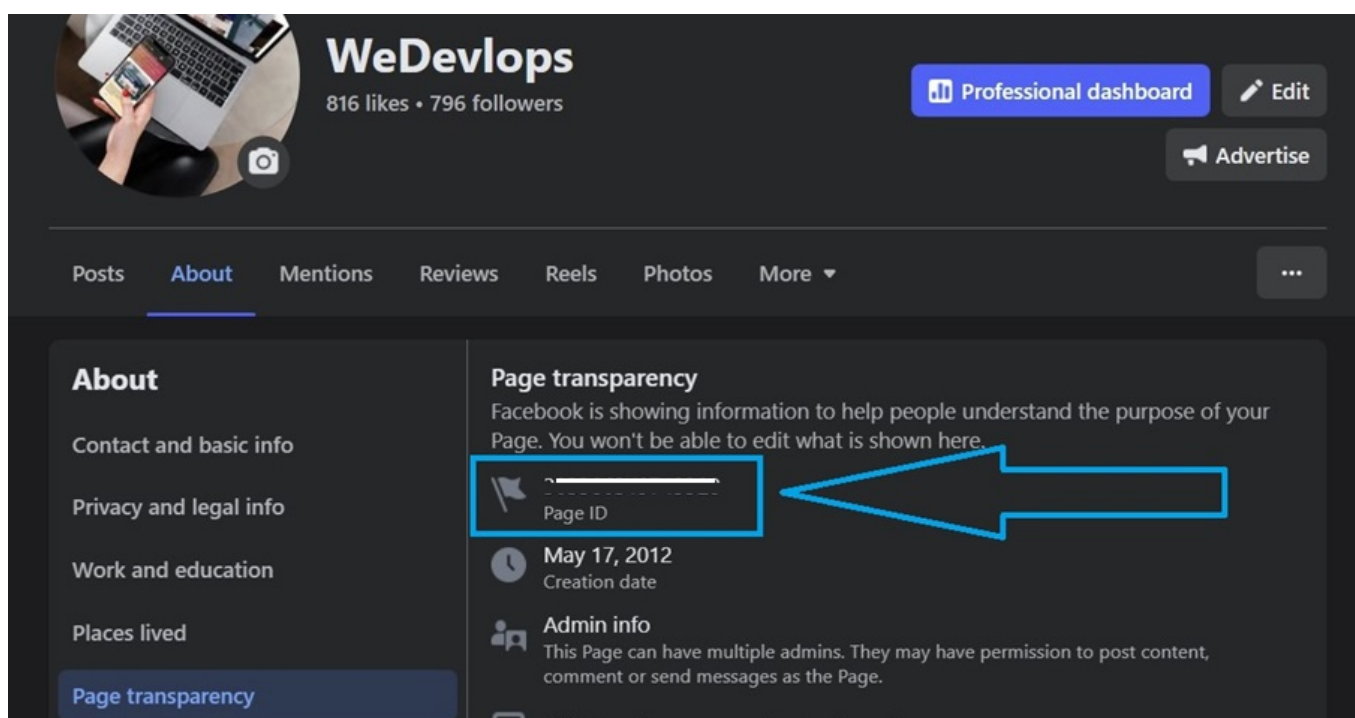

Simple Setup: Easy to install and configure, allowing you to quickly add the Facebook Messenger functionality to your site with minimal effort; simply input the **Facebook ID**.

Enhanced Communication: Facilitates real-time communication with your visitors, helping to improve customer satisfaction and boost conversions.

This module enhances your Joomla website by adding an interactive Facebook Messenger button with customizable floating effects. It provides a convenient way for visitors to contact you and ensures that the chat feature is always accessible, improving user engagement and support.
