Short Description

This module enhances your Joomla website by adding an interactive Instagram chat button with customizable floating effects. It provides a convenient way for visitors to contact you through Instagram and ensures the chat feature is always accessible, improving user engagement and support across all devices.

Description

Joomla Module for Instagram Chat with Floating Button

Functionality:

Chat Integration: This module integrates Instagram chat functionality directly into your Joomla website, enabling visitors to chat with you via Instagram chat integration

Floating Button: Adds a floating chat button that can be positioned on either the left or right side of the screen. This ensures easy access for users no matter where they are on your site.

Customizable Position: You can choose to place the floating button on the left or right side to fit seamlessly with your site's design and layout.

Engaging Animation: The button features floating effects that attract visitors' attention, making it an effective tool for increasing engagement and enhancing customer service.

Responsive Design: The floating chat button works smoothly across all devices,

including desktops, tablets, and smartphones, ensuring a consistent user experience.

Mobile-Friendly: Optimized for mobile view, the chat button ensures that mobile users can also easily access the Instagram chat feature.

Compatibility: Fully compatible with Joomla 3, Joomla 4, and Joomla 5, ensuring it works across different versions of Joomla.
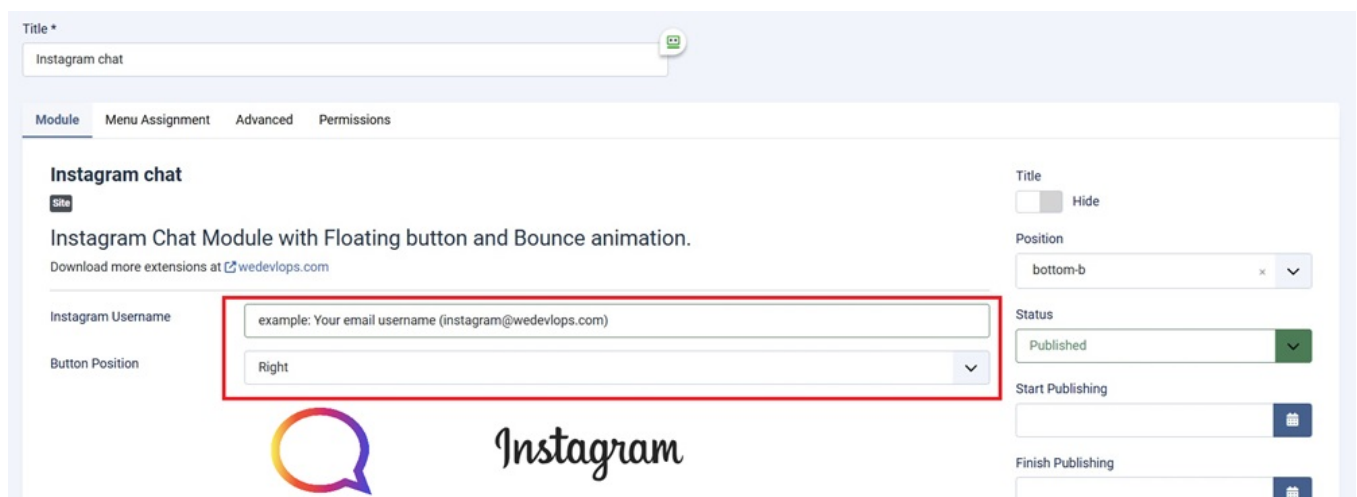

Simple Setup: Easy to install and configure, allowing you to quickly add Instagram chat functionality to your site with minimal effort. ***Simply Input your Instagram username***

Enhanced Communication: Facilitates real-time communication with your visitors, helping improve customer satisfaction and increase engagement.

This module enhances your Joomla website by adding an interactive Instagram chat button with customizable floating effects. It provides a convenient way for visitors to contact you through Instagram and ensures the chat feature is always accessible, improving user engagement and support across all devices.
