Short Description
This module is perfect for adding a whimsical and dynamic effect to your WordPress site. By the animation, you can create a unique and captivating stars field that enhances the overall user experience and keeps visitors engaged.

Description
The Blinking Stars plugin for WordPress adds an animated effect of blinking stars with different colors (pro version only) to your website, enhancing its visual appeal

Dynamic Visuals: This plugin adds an animated effect of blinking stars to your WordPress website, enhancing its aesthetic appeal.

Responsive Design: The animation works seamlessly across all devices, ensuring a consistent visual experience on desktops, tablets, and smartphones.

Versatile Use: Perfect for adding a magical touch to your site, celebrating special events, or simply making your website more engaging.

Compatibility: Fully tested and operational on WordPress version 6.x and works with all WordPress templates.

Easy Setup: Quick to install and configure, enabling you to add the blinking stars effect to your site with minimal effort.

This module is perfect for adding a whimsical and dynamic effect to your WordPress site. By the animation, you can create a unique and captivating stars field that enhances the overall user experience and keeps visitors engaged.

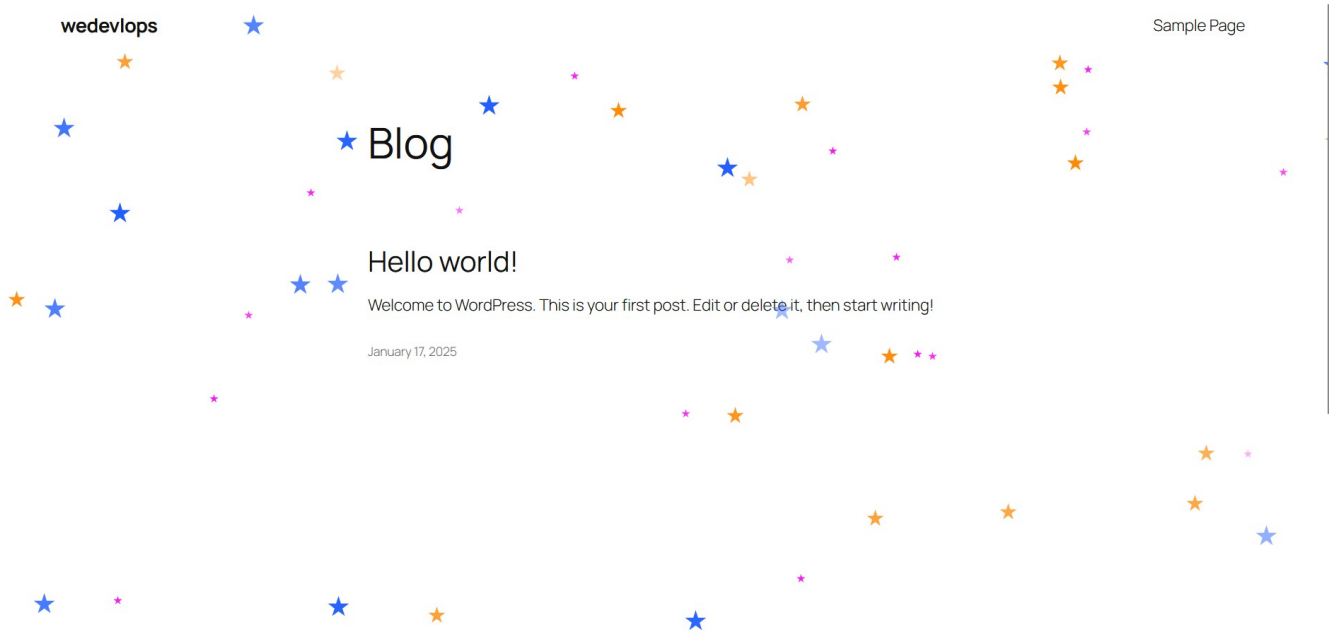
FOR PRO VERSION:

Customizable Animation: Through the WordPress admin panel, you can control the speed of the blinking animation and the delay between each star's appearance. This allows you to create a unique and captivating star field1.

Random Color Generation: Each star is assigned a random color, creating a vibrant and lively display that captures visitors' attention.

Customizable Colors: Simply add the colors you want to show on the backend settings.

Easy Setup: With backend settings for Star Colors, Blinking Animation Speed, and Star Appearance Delay.



Backend Setting for PRO only:
