

# Social Media Icons Joomla Module

**Brand:** WeDevelops

**Product Code:** j social media icons

**Availability:** In Stock

**Weight:** 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

**Price: \$14.99**

## Short Description

The module supports a wide range of social media platforms, including Facebook, Twitter, LinkedIn, Instagram, YouTube, Skype, and WhatsApp.

## Description

**The Joomla Module for social icon display is a versatile tool that allows users to showcase social media icons on their website.**

## Here are the key features and functions:

**Social Media Integration:** The module supports a wide range of social media platforms, including Facebook, Twitter, LinkedIn, Instagram, YouTube, Skype, and WhatsApp.

**Customizable Icons:** Users can customize the colors of the social media icons to match their website's theme. This includes the ability to adjust the size of the icons to fit different design preferences.

**Positioning Options:** The module allows users to position the social media icons anywhere on their website. This can be done by selecting the desired module position.

**Hover Effects:** The module includes bounce hover effects that add visual interest when users move their cursor over the icons. This can enhance the user experience and draw attention to the social media links.

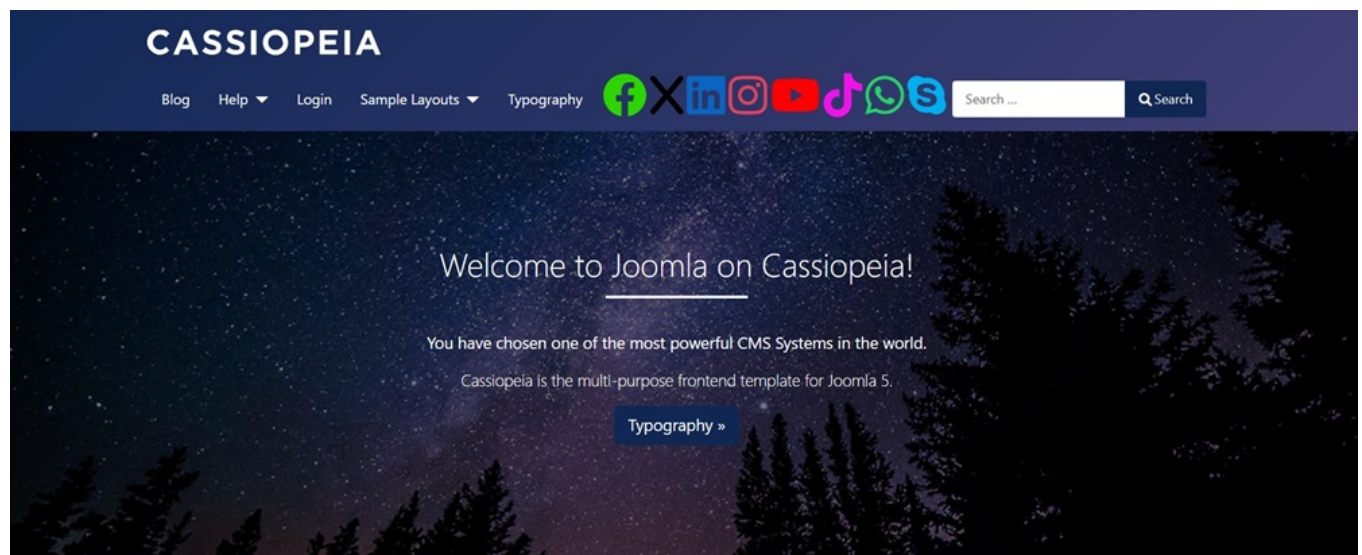

**Link Customization:** Users can link the icons directly to their social media profiles or other relevant URLs. This includes the ability to open the links in the same window or a new window.

**Skype Call and WhatsApp Chat Integration:** The module supports integration with Skype and WhatsApp, allowing visitors to initiate calls or chats directly from the website.

**Easy Installation and Configuration:** The module is designed to be user-friendly, with straightforward installation and configuration processes. Users can easily add their social media IDs and adjust settings through the Joomla backend.

Overall, the Joomla Module for social icon display is a powerful tool for enhancing social media presence on a website, offering extensive customization options and seamless integration with popular platforms.
